

Database

Add a not null column

Release

Add the column nullable

```
ALTER TABLE address ADD COLUMN zipcode TEXT NULL;
```

The code should write in the column

```
class Address
{
+  #[Column(type: "text", nullable: true)]
+  protected $zipcode = null;

  public create(
    string $street,
    string $city,
+   string $zipcode,
  )
}
```
